Annexure -I

1 Introduction

1.1 Biomedical Waste Management Rules, 2016

Government of India has notified Biomedical Waste Management Rules, 2016 (BMWM Rules, 2016) under the Environment (Protection) Act, 1986 which stipulates provision for treatment and disposal of biomedical waste in an environmentally sound manner and accordingly, biomedical waste is managed in line with the said Rules in the Country. The Rules are applicable to all persons who generate, collect, receive, store, transport, treat, dispose, or handle biomedical waste in any form.

As per the said Rules, the Health Care Facilities (HCFs) are required to handover the segregated biomedical waste to Common Biomedical Waste Treatment Facilities (CBWTFs) for further treatment and disposal.

The Rules stipulates that HCFs shall hand over segregated biomedical waste as per colour coded system prescribed under Schedule -I of BMWM Rules, 2016 in four categories i.e. Yellow category, red category, blue category and white category to CBWTF for treatment and final disposal in accordance with Schedule -I and in compliance with the standards prescribed under Schedule-II of BMWM Rules, 2016.

BMWM Rules, 2016 have been amended on 16.03.2018, 19.02.2019 and 10.05.2019 to strengthen the framework for biomedical waste segregation, treatment, and disposal. The key changes in the amendments are in respect of efficient segregation, treatment & disposal methods for biomedical waste, reporting of annual report information through Form IV A and regulations to ensure proper management of liquid waste by small healthcare units (less than ten beds).

The BMWM Rules, 2016 stipulates duties of Occupiers, Operator of CBWTFs as well as duties for authorities' vis-a-vis Ministry of Environment Forest & Climate Change (MoEF & CC), Ministry of Health & Family Welfare (MoHFW), Ministry of Defense (MoD), Central Pollution Control Board (CPCB), State Government of Health (GoH), State Pollution Control Boards (SPCBs)/Pollution Control Committees (PCCs) and Municipalities or Urban Local Bodies (ULBs). As per the Rules, SPCB/PCC is the prescribed authority for implementation of BMWM Rules, 2016, in respective State/UT.

1.2 Annual Report on Biomedical Waste Management

As per BMWM Rules, 2016 every occupier and operator of CBWTF shall submit the annual report to the prescribed authority i.e. SPCBs/PCCs on or before the 30th June of every year for the period of January to December of the preceding calendar year. Thereafter, the prescribed authority shall compile, review and analyze the information received and send to Central Pollution Control Board (CPCB) on or before the 31st July of every year. The Annual Reports shall also be available online on the websites of Occupiers, SPCB/PCC and CPCB. The Annual Report provides the information regarding the biomedical waste generation, collection, treatment, biomedical waste sent to recyclers after treatment, trainings conducted on biomedical waste management, no. of violators & action taken against violators of BMWM Rules, 2016, etc. These details provided through the Annual Report help in analyzing status of the biomedical waste management across

the country, identifying the gaps in the biomedical waste management and addressing the shortcoming in the upcoming year for effective management of biomedical waste and implementation of BMWM Rules, 2016.

1.3 Status of Annual Report 2024 and Gaps identified

All States/UTs and Director General of Armed Force Medical Service (DGAFMS) have submitted the annual reports information on biomedical waste management for the year 2024.

States/UTs namely Andaman Nicobar, Andhra Pradesh, Assam, Chhattisgarh, Delhi, Gujarat, Haryana, Jharkhand, Jammu & Kashmir (J & K), Kerala, Maharashtra, Manipur, Punjab, Karnataka, Telangana, Tripura, Uttarakhand, Uttar Pradesh, West Bengal and DGAFMS submitted the annual report information after July, 2025. However, other States submitted Annual Report before 31st July 2025.

The following common gaps/discrepancies were observed in the annual report information received from SPCBs/PCCs which were communicated to respective States/UTs for clarification and rectification.

i. HCFs are operational without authorization.
ii. HCFs are still using captive treatment facilities including deep burial for disposal of biomedical waste.
iii. Gap in generation and treatment of bio-medical waste.
iv. All operational CBWTFs are not installed Online Continuous Monitoring System (OCEMS).
v. All HCFs have not installed effluent treatment facility.
vi. Less no. of HCFs constituted bio-medical waste management committee.

The response received from SPCBs/PCCs have been incorporated in Annual Report.

1.4 Brief Summary of Bio-medical Waste Management in India

There are 4,56,538 nos. of HCFs in the country, out of which 1,38,516 nos. of HCFs are bedded (total beds: 31,51,294) and 3,18,022 nos. of HCFs are non-bedded. About 815 tons/day of biomedical waste was generated in the country, out of which 810 tons/day was treated and disposed-off through CBWTFs and Captive Treatment Facilities (CTFs). 3,95,385 no. of HCFs i.e. around 87 % of total HCFs utilize CBWTFs for the collection, treatment, & disposal of biomedical waste, while 13,975 no. i.e. around 3 % of HCFs have captive treatment facilities for the treatment and disposal of biomedical waste. (10 %) of HCF reported neither using CBWTF nor CTF. States/UTs have submitted that the gap in the number of healthcare facilities (HCFs) neither utilizing Common Bio-Medical Waste Treatment Facilities (CBWTFs) nor Captive Treatment Facilities (CTFs) is attributable to non-submission of information by HCFs regarding the practice of deep burial. At present, 245 Common Bio-Medical Waste Treatment Facilities (CBWTFs) are in operation, while 30 CBWTFs are under construction. **Annexure-I** provide details of biomedical waste management in State/UTs. Brief of biomedical waste scenario of the Country is given below:

No. of HCFs	4,56,538
No. of bedded HCFs	1,38,516
No. of non-bedded HCFs	3,18,022
No. of beds	31,51,294
No. of CBWTFs	245* + 30**
No. of HCFs authorized	3,65,604
No. of HCFs utilizing CBWTFs	3,95,385
No. of HCFs having Captive Treatment Facilities	13,975
No. of Captive Incinerators Operated by HCFs	72
Quantity of BMW generated in tons/day	815
Quantity of BMW treated in tons/day	810
No. of HCFs/CBWTFs violated BMW Rules	27,313
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	14,783

Note: (i) * - CBWTFs in operation (ii) ** - CBWTFs under construction

1.5 Comparison of Biomedical Waste Management between year 2023 and 2024

According to the annual report for 2024, around 815 tons/day of biomedical waste is generated, surpassing the 743 tons/day of biomedical waste generated in year 2023. The report also highlights a rise in the number of CBWTFs, increasing from 234 in 2023 to 245 in 2024, facilitating the treatment and disposal of biomedical waste. Alongside this growth, there was a decline in the number of captive treatment facilities, which decreased from 15,870 to 13,975 and a reduction in the number of captive incinerators from 86 to 72. Captive treatment facilities are mainly found in remote and hilly areas, where access to CBWTFs is limited.

Detailed comparison on biomedical waste management scenario during 2023 and 2024 is mentioned in Table 1 below:

Table 1: Comparative BMWM scenario in 2023 and 2024

Particulars	Year 2023	Year 2024
No. of HCFs	4,35,257	4,56,538
No. of bedded HCFs	1,37,132	1,38,516
No. of non-bedded HCFs	2,98,125	3,18,022
No. of beds	30,91,847	31,51,294
No. of CBWTFs	234* + 30**	245*+ 30**
No. of HCFs utilizing CBWTF	3,14,586	3,95,385

No. of HCFs having Captive Treatment Facilities	15,870	13,975
No. of Captive Incinerators Operated by HCFs	86	72
Quantity of BMW generated (Tons/day)	743	815
Quantity of BMW treated (Tons/day)	694	810
No. of HCFs/CBWTFs violated BMWM Rules, 2016	20,081	27,313
No. of Show-cause notices/Directions issued to defaulter HCFs	8,082	14,783

Note: (i) * - CBWTFs in operation (ii) ** - CBWTFs under construction

2 Status of Healthcare Facility

2.1 Availability of Healthcare Facilities

As per BMWM Rules, 2016, Health Care Facility means a place where diagnosis, treatment or immunization of human beings or animals is provided irrespective of type, size of health treatment system, and research activity pertaining thereto. It includes bedded and non-bedded HCFs.

As per the annual report information received from SPCBs and PCCs for the year 2024, there are 4,56,538 no. of HCFs, out of which 1,38,516 no. of HCFs are bedded and 3,18,022 no. of HCFs are non-bedded. Detail of number of HCFs in States/UTs and DGAFMS are given in fig. 1 and 2. In case of States, Maharashtra has the highest number of HCFs followed by Karnataka, Uttar Pradesh, Gujarat and Tamil Nadu. Mizoram has the lowest number of HCFs followed by Arunachal Pradesh, Sikkim and Ladakh. In case of Union territories, Delhi has the highest number of HCFs and the lowest number of HCFs are present in Lakshadweep. The figure no. 1 & 2 also depict the same.

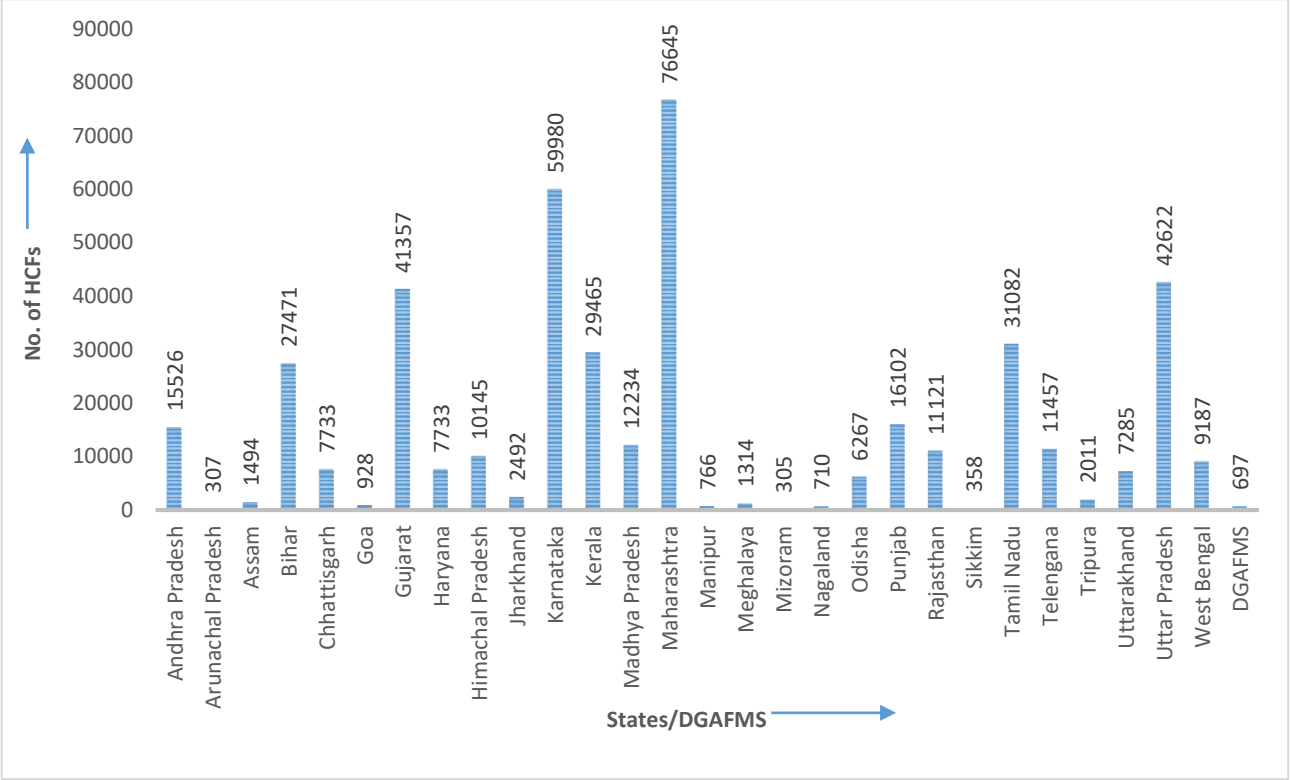

Figure 1: No. of HCFs in States & DGAFMS

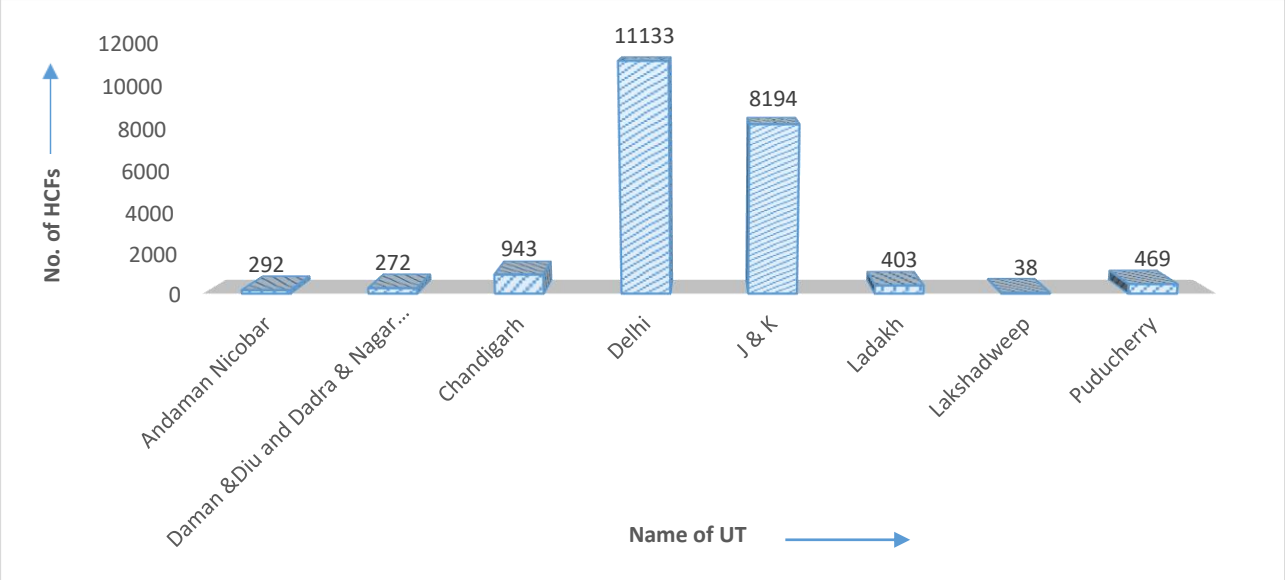

Figure 2: No. of HCFs in UTs

2.2 Authorization of Healthcare Facilities

Authorization is a process to bring HCFs and CBWTFs under the purview of BMWM Rules, 2016. BMWM Rules, 2016 stipulate that every healthcare facility (bedded & non bedded) is required to obtain authorization from concerned SPCB/PCC. It has been observed that some of the HCFs are not yet authorized which is a violation of BMWM Rules, 2016. SPCB/PCC should ensure authorization of every HCFs under BMWM Rules, 2016 and take action against HCFs which are operational without having authorization.

As per the Annual Report information, in States/UTs namely Arunachal Pradesh, Bihar, Manipur, Puducherry and West Bengal, 100 % HCFs are authorized.

HCFs are in operation without authorization in the States/UTs namely Andhra Pradesh, Arunachal Pradesh, Assam, Daman & Diu, Haryana, Himachal Pradesh, Jharkhand, J & K, Karnataka, Kerala, Ladakh, Madhya Pradesh, Maharashtra, Meghalaya, Mizoram, Nagaland, Odisha, Punjab, Sikkim, Tamil Nadu, Telangana, Uttarakhand and Uttar Pradesh. Some SPCBs/PCCs submitted that non-bedded HCFs like small clinics, dispensaries etc. never applied for authorization and list of such HCFs are forwarded to State Health Departments to direct these HCFs to obtain authorization.

Some States namely Andaman & Nicobar, Chandigarh, Chhattisgarh, Delhi, Goa, Gujarat, and Lakshadweep have not provided the information of no. of HCFs in operation without authorization. All states status of authorization of HCFs in States/UTs are given in fig. 3 & 4.

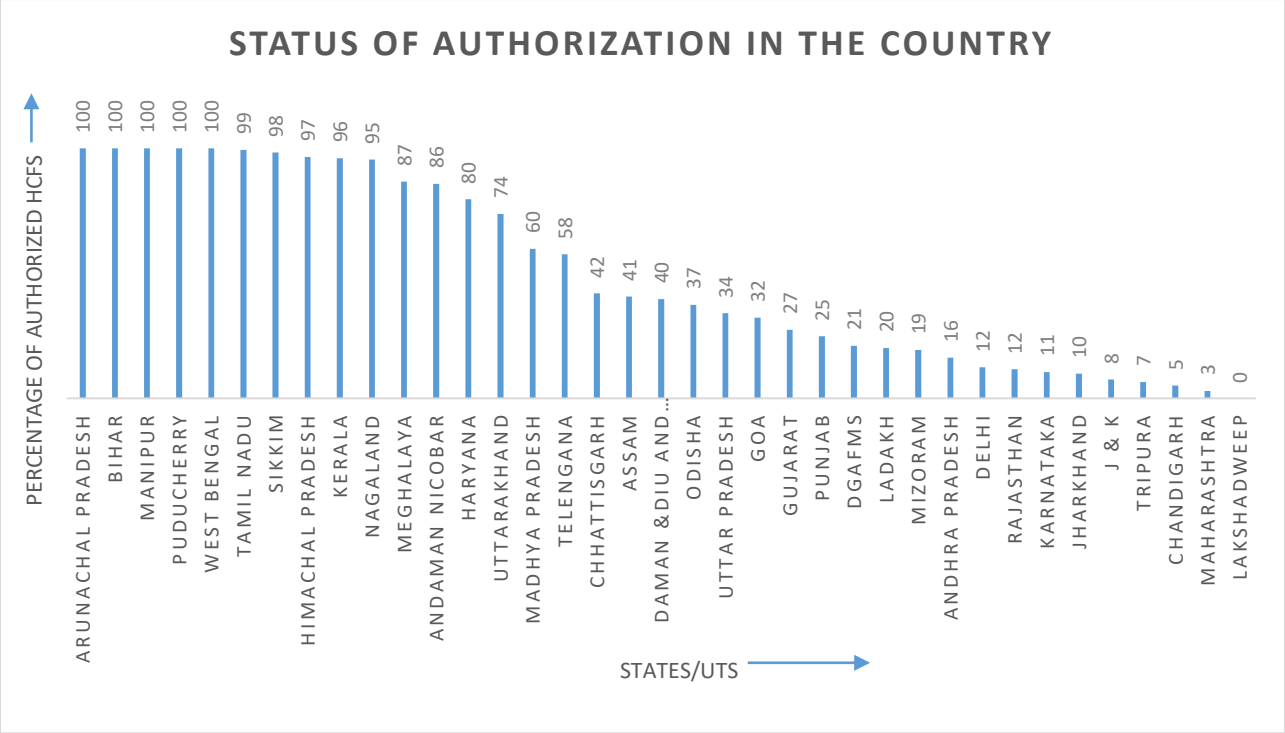

Figure 3: Percentage of HCFs authorized during year 2024 in States/UTs

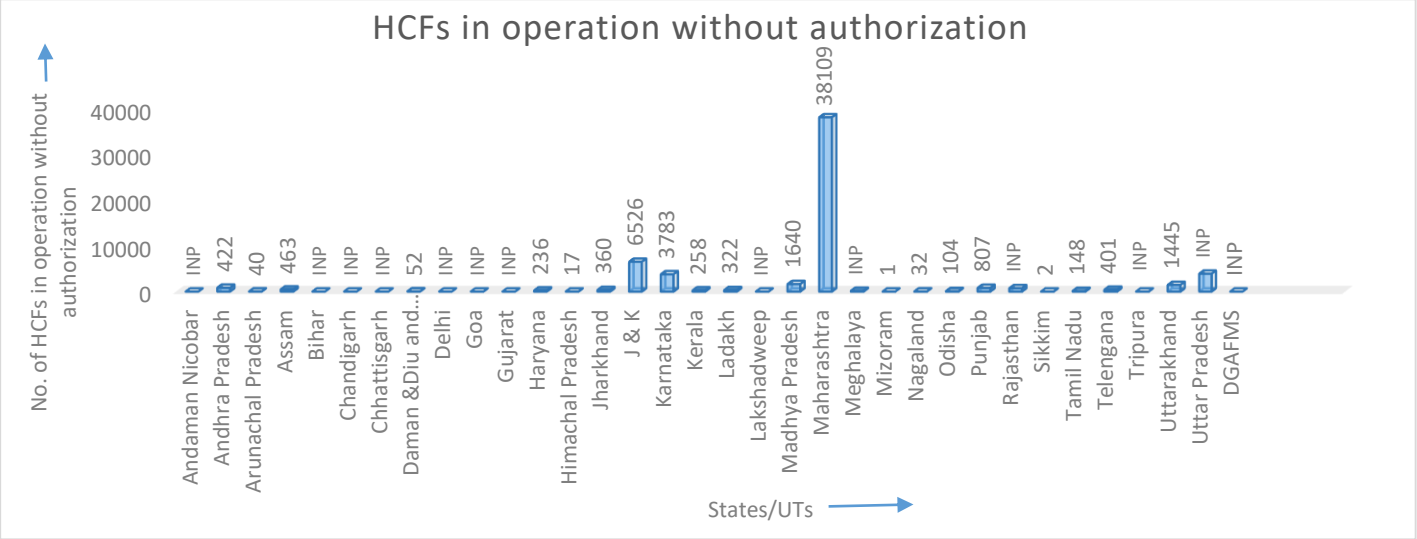

Figure 4: Unauthorized HCFs in operation in States/UTs (INP-Information not provided)

3 Status of Biomedical Waste Generation & Treatment

3.1 Biomedical Waste Generation

Bio-medical waste means any waste which is generated during the diagnosis, treatment or immunization of human beings or animals or research activities pertaining thereto or in the production or testing of biological or in health camps, including the categories mentioned in Schedule -I of BMWM Rules, 2016. As reported by SPCBs/PCCs, about 815 tons/day of biomedical waste was generated during the year 2024 by 4,56,538 numbers of HCFs.

The maximum amount of BMW generated in the Uttar Pradesh State followed by other states namely Kerala, Maharashtra, Karnataka and Tamil Nadu, while the lowest amount of BMW generated in the UT Lakshadweep followed by other UTs/States namely Ladakh, Arunachal Pradesh, Andaman & Nicobar, Daman & Diu and Sikkim respectively.

The biomedical waste generation generally depends on the number of healthcare facilities present in the State, population density, type of healthcare facility, etc. the quantity of biomedical waste generated in the States and UT in year 2024 is given in fig 5 and 6.

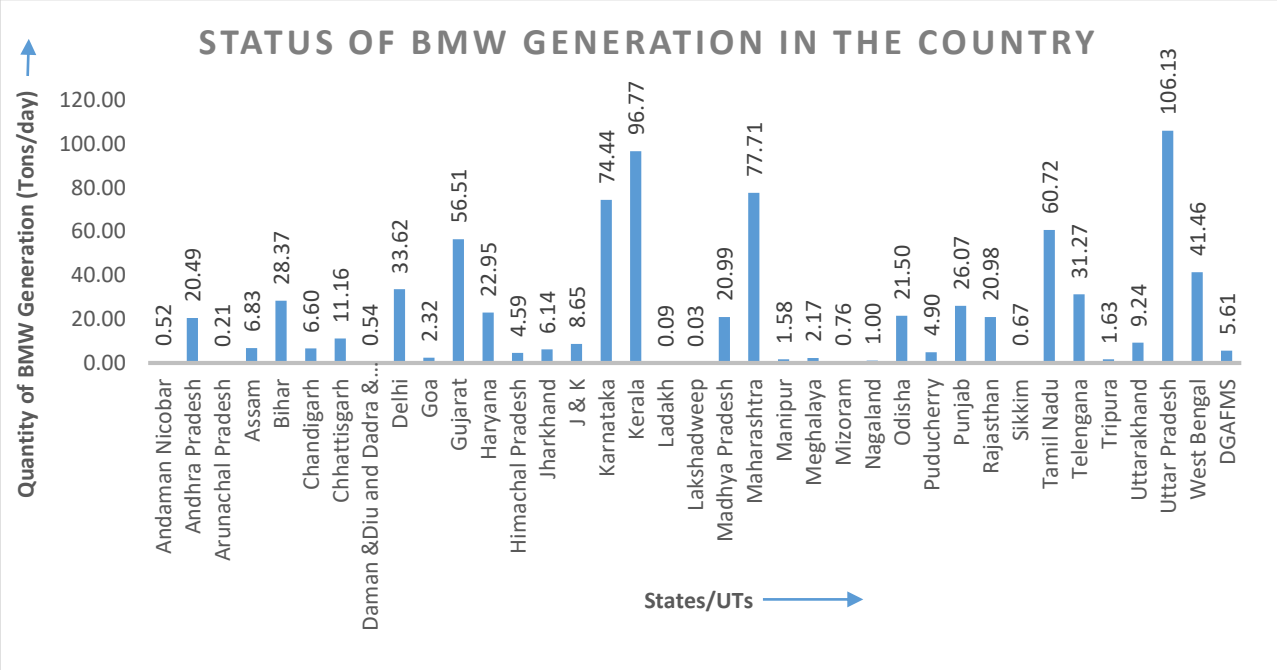

Figure 5: Total Quantity of BMW generated (tons/day) in the States/UTs and DGFAMS

3.2 Treatment of Biomedical Waste

As per Rule 7 (1), biomedical waste is required to be treated and disposed of in accordance with Schedule- I, and in compliance with the standards provided in Schedule-II of BMWM Rules, 2016. Out of 815 tons/day of biomedical waste generated in the country, 810 tons/day of BMW is treated and disposed of by CBWTFs and CTFs installed by HCFs.

For environment friendly disposal of biomedical waste, there should be no gap between generation and treatment & disposal of biomedical waste. However, the gap in generation,

treatment & disposal has been observed in States/UTs namely Assam, Jharkhand, Madhya Pradesh, Manipur, Nagaland, Odisha and Puducherry (figure 6). The gap in generation, treatment and disposal was also observed in year 2023 in States namely Assam, Bihar, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Manipur, Mizoram, Nagaland and Puducherry. In 2024, Bihar, Karnataka, Kerala and Mizoram States have rectified the gap between generation and treatment & disposal. CPCB has communicated the gaps observed to the respective SPCB/PCC to ensure rectify the issue and ensure the disposal of all biomedical waste generated in State/UT accordance with the BMWM Rules, 2016.

Some SPCBs/PCCs submitted that the gap between BMW generation and disposal is due to inadequate treatment capacity. Further, continuous efforts are being made by SPCBs/PCCs to ensure that there is no gap between generation and treatment of biomedical waste.

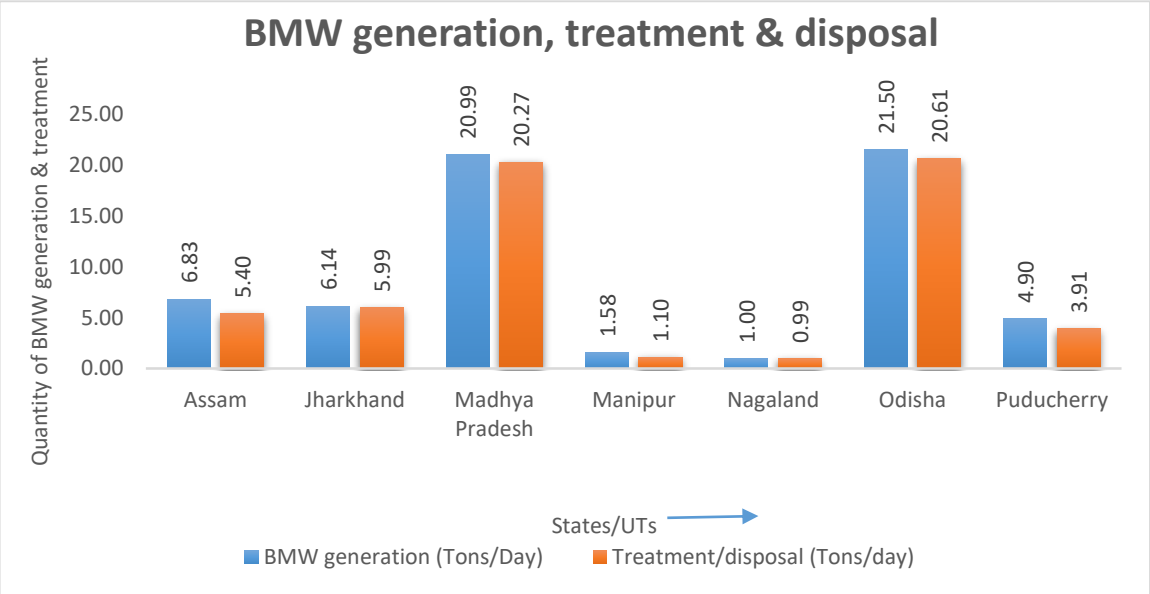

Figure 6: Status of generation, treatment & disposal of biomedical waste

4 Status of Common Biomedical Waste Treatment Facilities (CBWTF)

4.1 Availability of CBWTF

CBWTF means the facility which is involved in collection, treatment and disposal of bio-medical waste. As per BMWM Rules, 2016, it is the duty of CBWTF operator to take all necessary steps to ensure that the biomedical waste collected from the occupier is transported, handled, stored, treated and disposed of, without any adverse effect to the human health and the environment, in accordance with BMWM Rules, 2016 and guidelines issued by the CPCB.

As per the Annual Report Information submitted by SPCBs/PCCs for the year 2024, currently there are 245 number of CBWTFs operated in the Country and 30 CBWTFs are under construction. In the year 2024, there are an increase in number of CBWTFs in Gujarat, Jharkhand, Karnataka, Tamil Nadu, Telangana, Uttarakhand, Uttar Pradesh and West Bengal as compared to year 2023. Daman & Diu and Dadra & Nagar Haveli utilizes the CBWTF of Gujarat State for treatment and disposal of biomedical waste. Similarly, Lakshadweep is

utilizing the CBWTF situated in Kerala for treatment and disposal of Red and Blue category biomedical wastes. In remaining States/UTs, disposal of biomedical waste is being done through captive treatment facilities including deep burials. In this regard, CPCB requested such SPCBs/PCCs for submitting the proposal for setting up of CBWTFs to cover entire districts of State/UT. No. of CBWTF present and under construction in State and UTs is represented in fig. 7.

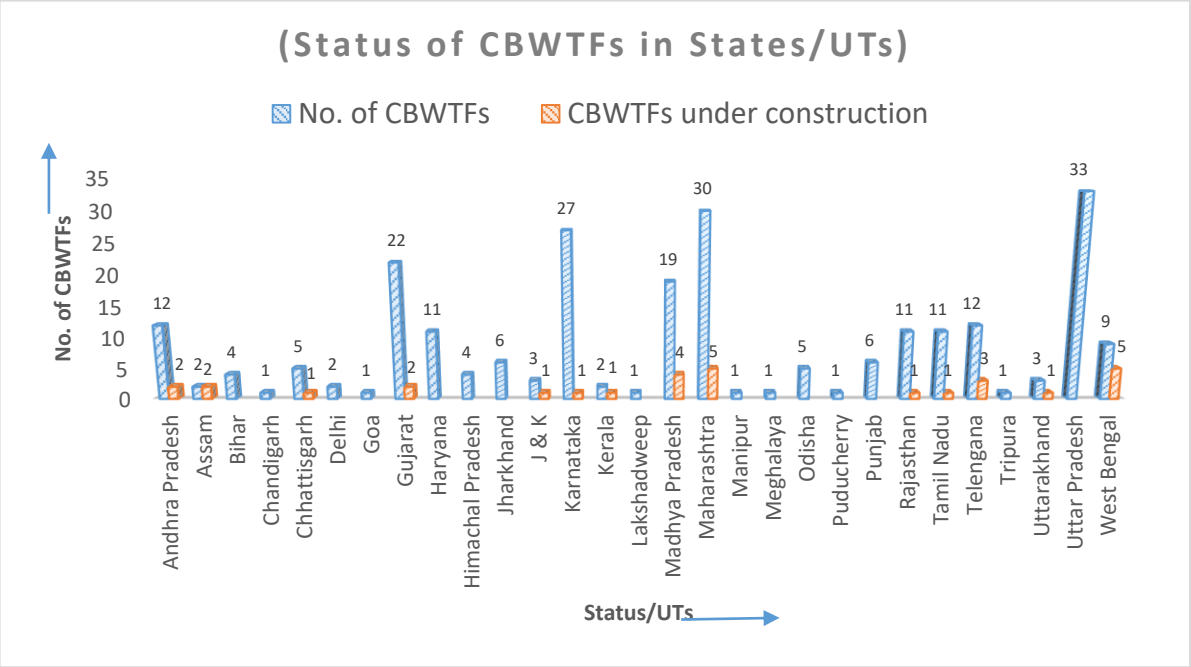

Figure 7: No. of CBWTFs operational and under construction in the States/UTs

CBWTFs are under construction in States like Andhra Pradesh, Assam, Chhattisgarh, Gujarat, J & K, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Rajasthan, Tamil Nadu, Telangana, Uttarakhand and West Bengal. The availability of CBWTFs operated in States varies based on the area of the State, population density, number of HCFs in the States/UT, capacity of the CBWTF, accessibility of CBWTF etc.

Andaman and Nicobar, Arunachal Pradesh, Ladakh, Lakshadweep, Mizoram, Nagaland and Sikkim have reported that no CBWTF is present in the State/UTs. In this regard, CPCB requested such SPCBs/PCCs to initiate action for establishment of CBWTF and submit action taken to CPCB.

4.2 Utilization of CBWTF

As per Rule 7 (3) of the BMWN rules, 2016, "no occupier shall establish on-site treatment and disposal facility, if a service of common biomedical waste treatment facility is available at a distance of seventy-five kilometers". As per Annual Report information for year 2024, all HCFs operating in States/UTs namely Bihar, Chandigarh, Delhi, Haryana, Gujarat, Puducherry, Tamil Nadu, Telangana, West Bengal are using CBWTF for treatment and disposal of biomedical waste. In other States/UTs namely Assam, Bihar, Chhattisgarh, Delhi, Himachal Pradesh, Jharkhand, Jammu & Kashmir, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Manipur, Meghalaya, Odisha, Puducherry, Rajasthan, Uttarakhand, Uttar Pradesh and DGAFMS are using captive

treatment facilities along with CBWTF.

As per the observation reports received from SPCBs/PCCs, a gap has been observed in the utilization of Common Bio-Medical Waste Treatment Facilities (CBWTFs), primarily due to non-linkage of veterinary hospitals with CBWTFs. In this regard, the Andhra Pradesh SPCB/PCC has already addressed the issue by writing to the Director, Animal Husbandry, to ensure that all veterinary hospitals establish tie-ups with CBWTFs. Other States are advised to take necessary action to ensure that veterinary hospitals within their jurisdiction are linked with CBWTFs and to rectify this issue so as to achieve 100% utilization of CBWTF services within their respective States.

Further, in certain States (such as Meghalaya), some healthcare facilities operating in rural areas are not utilizing CBWTF services due to the non-availability of CBWTFs in these locations. Such facilities have established their own treatment and disposal systems, such as deep burial pits and sharps pits, constructed in accordance with the Bio-Medical Waste Management (BMWM) Rules, 2016. In this regard, the concerned State needs to progressively develop adequate bio-medical waste treatment and disposal infrastructure, including CBWTFs, in rural areas so as to achieve 100% utilization of CBWTF services for the treatment and disposal of bio-medical waste in the future.

Some of the HCFs of these States are having captive treatment facility (captive incinerator) for treatment and disposal of bio-medical waste. States/UTs may look into the accessibility of CBWTFs and come up with new CBWTFs to cover all HCFs in the State/UT. Utilization of CBWTFs by HCFs (in percentage) is given in fig. 8

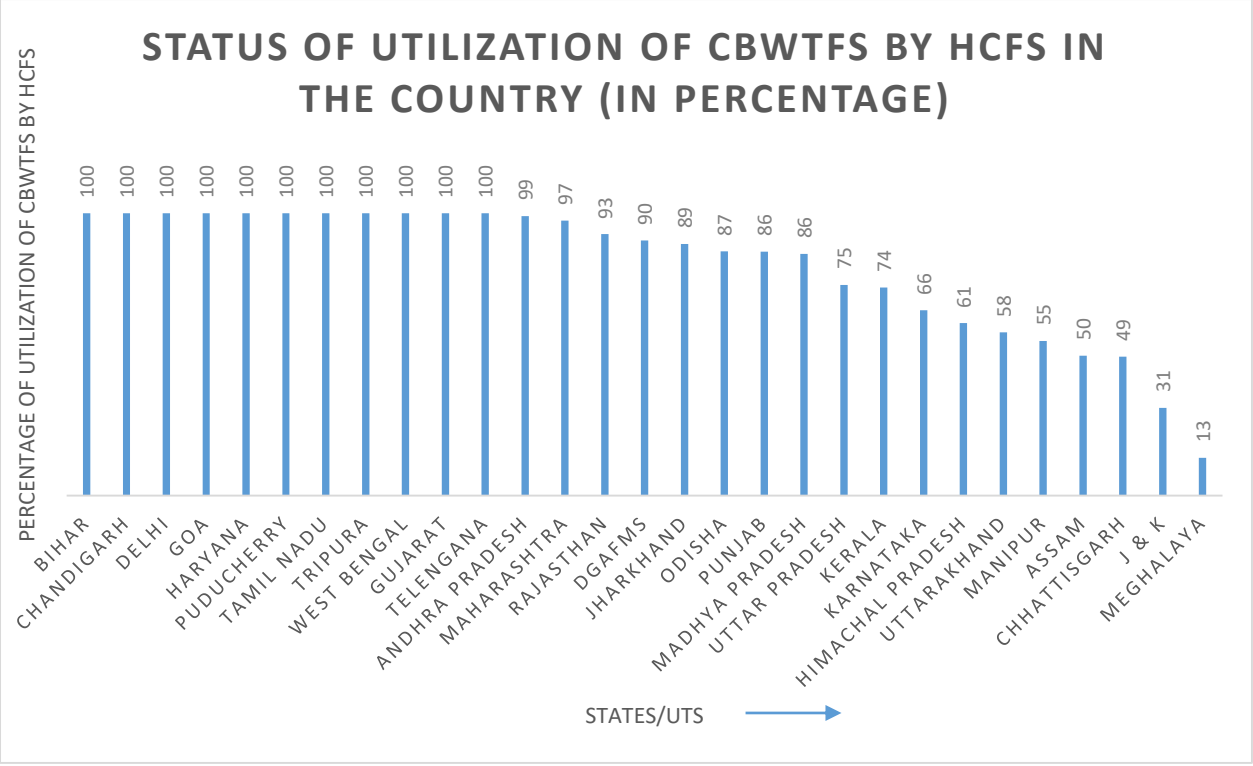

Figure 8: Percentage of HCF utilizing the CBWTF in various States/UT

The CBWTFs in the country are operating at cumulative treatment and disposal capacity of 2097 MT/day, of which incineration capacity is 1008 MT/day and autoclave capacity is 1089 MT/day. The present generation of 815 MT/day may look adequate for treatment and disposal of BMW. However, availability of CBWTFs may vary at State Level. Biomedical waste generated and remaining treatment capacity of CBWTFs after treatment of generated biomedical waste is given in figure 9.

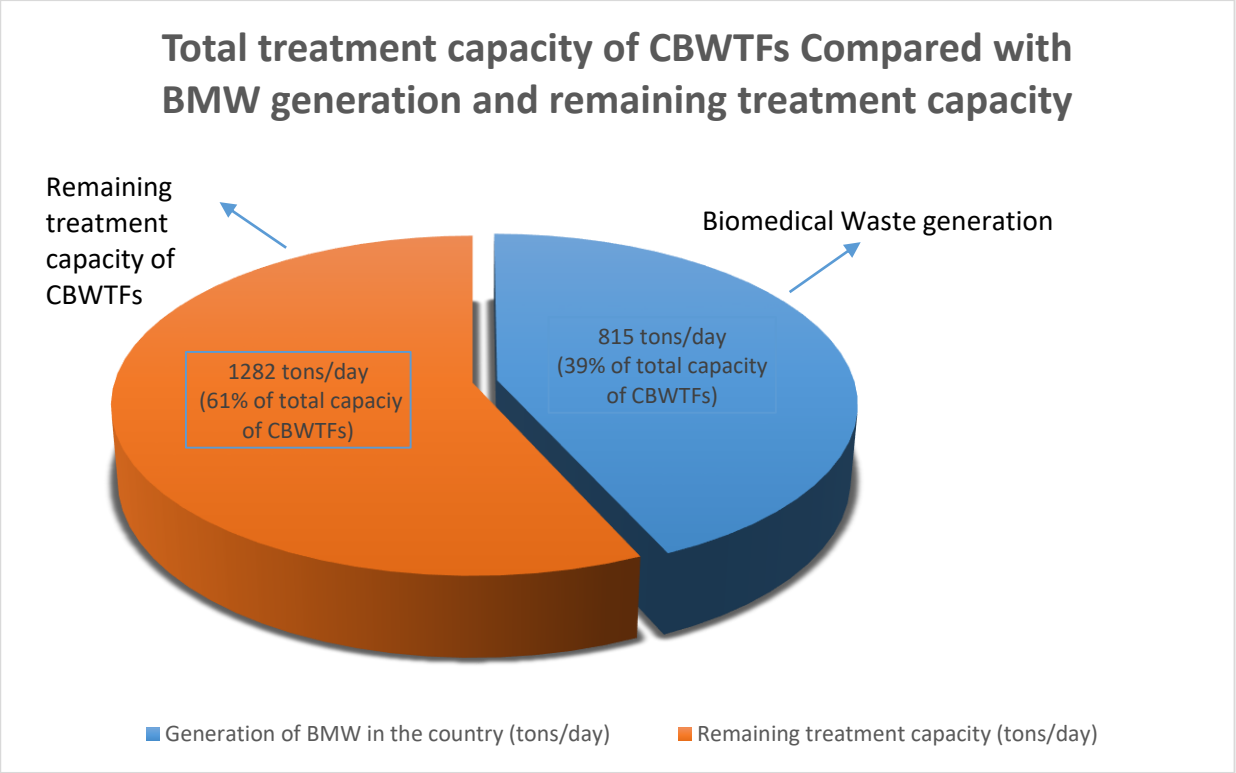

Figure 9 : Total treatment capacity of CBWTFs compared with biomedical waste generation and remaining treatment capacity

As per Annual report information for year 2024, there is a gap between biomedical waste generation and its treatment & disposal. However, Figure 9 depicts that only 39% of the treatment capacity of CBWTFs is being used for processing the generated biomedical waste, leaving 61% of the capacity still available for biomedical waste treatment and disposal.

5 Status of Captive Treatment Facility (CTF) including deep burial

BMWM Rules, 2016 restricts on-site treatment and disposal facility, if a service of CBWTF is available at a distance of 75 Km. 13,975 numbers of HCFs are having captive treatment facility. There was a progressive reduction in captive treatment facilities across the country in 2024 relative to 2023. States/UTs namely Andhra Pradesh, Chandigarh, Daman, Diu and Dadar and Nagar Haveli, Goa, Gujarat, Haryana, Punjab, Tamil Nadu, Telangana, Tripura and West Bengal are not using captive treatment facility. The States/UTs, namely Andhra Pradesh, Chandigarh, Daman & Diu and Dadra & Nagar Haveli, Goa, Gujarat, Haryana, Punjab, Tamil Nadu, Telangana, Tripura and West Bengal, do not have any captive bio-medical waste treatment facilities.

Number of HCFs having captive treatment facility in various States/UTs are showing in figure 10. These States/UT should explore the possibility of treating and disposing biomedical waste through CBWTF.

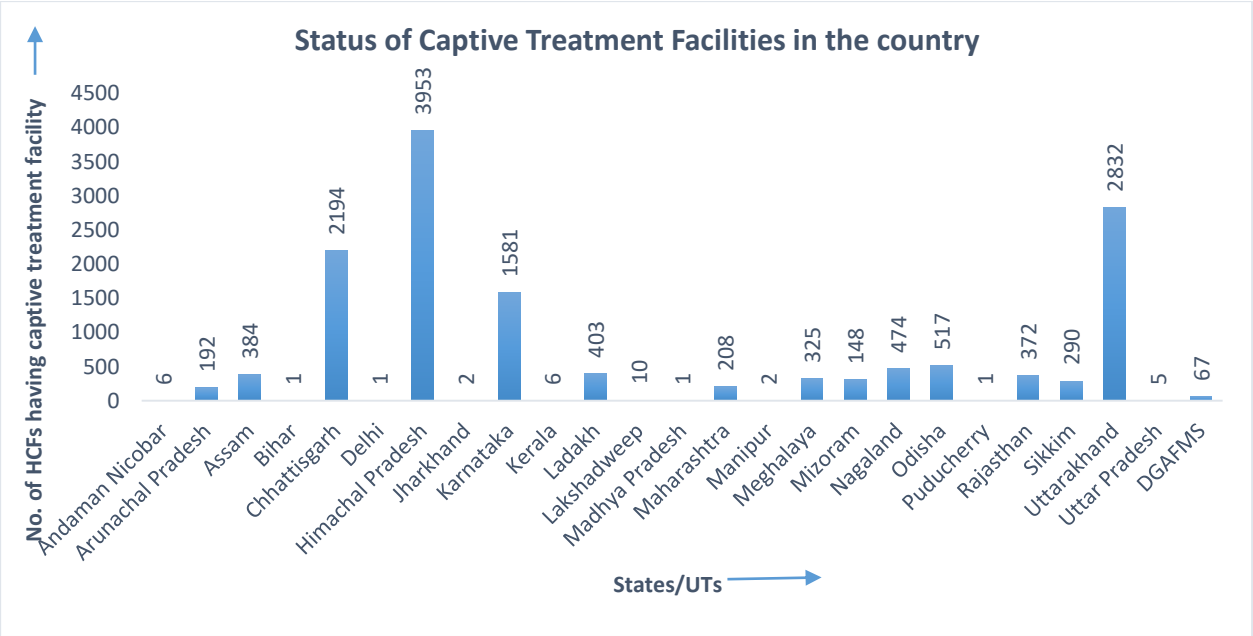

Figure 10 : Number of HCFs having captive treatment in States/UTs

CPCB has sent observations to all SPCBs/PCCs regarding HCFs having captive treatment facilities in their concern State, however, reply is yet to be received for the same. CPCB requested SPCBs/PCCs to restrict use of captive treatment facilities in case CBWTF is available within 75 km. SPCBs/PCCs should also ensure that if CBWTFs are not available with in radius of 75 Km, captive treatment facility operated by HCFs should with prior approval from the prescribed authority and as per the Standards specified in Schedule-II of BMWM Rules, 2016. As per the information submitted by the SPCBs/PCCs, deep burial practices are being carried out by healthcare facilities (HCFs) in Andaman & Nicobar Islands, Himachal Pradesh, Jharkhand, Karnataka, Ladakh, Lakshadweep, Maharashtra, Manipur, Meghalaya, Mizoram, Nagaland, Odisha, Rajasthan, Sikkim, Tripura, Uttarakhand, and DGAFMS. In addition, many of the states have not submitted the information of deep burial installed by HCFs, so CPCB has sent observation/gap to states regarding the submission of the information for the same. The status of deep burial pits installed by HCFs is given in figure 11.

As information received in gap analysis report, Himachal Pradesh having highest no. of HCFs using captive treatment facility due to the topographical conditions of hilly areas and limited road network in the State, the institutions located in far-flung areas are using deep burial methods for the treatment/disposal off bio-medical waste. Besides, the State Board is regularly insisting upon CBWTF operators to enhance their area of operation, to ensure maximum disposal of waste through CBWTF. In the year 2023, 4454 No. of HCFs were treating biomedical waste through deep burial method, which has been reduced to 3953 in 2024. The State Board aim to reduce these number substantially during 2025. Other state/UT which are having only one captive treatment facility like Bihar & Delhi, directed to concerned HCFs to utilize the authorized CBWTF only for

treatment and disposal of bio-medical waste.

CPCB directed all SPCBs/PCCs regarding verification of captive treatment facilities including deep burials installed by HCFs and ensure that these are in line with the standards given under BMWM Rules, 2016. SPCBs/PCCs should initiate steps to cover entire State/UT by CBWTF so as to minimize usage of captive treatment facility including deep burial pits by HCFs.

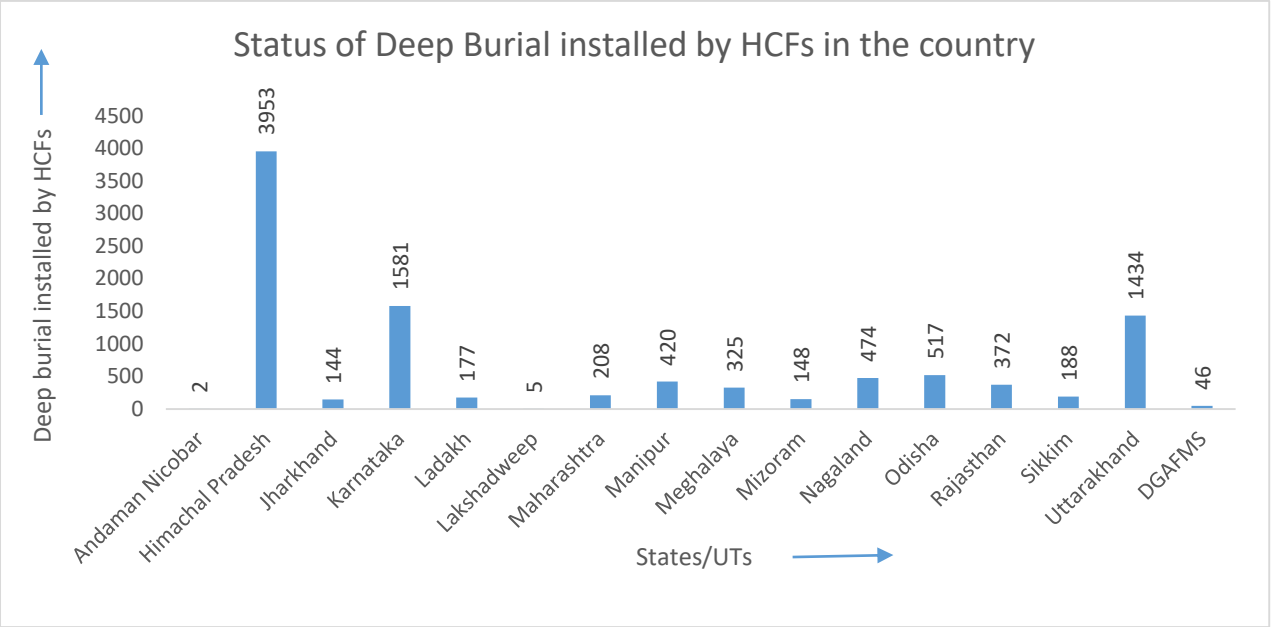

Figure 11: Deep burial installed by HCFs in States/UTs

6 Online Continuous Emission Monitoring System (OCEMS)

As per Schedule II of the BMWM Rules, 2016 stipulates "every occupier or operator of the common bio-medical waste treatment facility shall install Online Continuous Emission Monitoring System (OCEMS) for the parameters as stipulated by SPCBs/PCCs in authorization and transmit the real time data to the servers at SPCB/PCC and CPCB". As per the submitted information, 225 out of 245 nos. i.e. about 92 % of present CBWTFs have installed OCEMS for continuous emission monitoring. Further, it has been observed by CPCB that some of the CBWTFs connected to OCEMS portal are not transmitting data regularly to CPCB server. The state namely Uttar Pradesh has installed highest no. (33 nos.) of CBWTFs in 2024. States namely Assam, Chhattisgarh, Jharkhand, Maharashtra and Uttar Pradesh should ensure the installation of OCEMS by all existing CBWTFs and transmission of the real time data to the SPCB and CPCB server. CBWTFs where OCEMS is not installed is shown in figure 12.

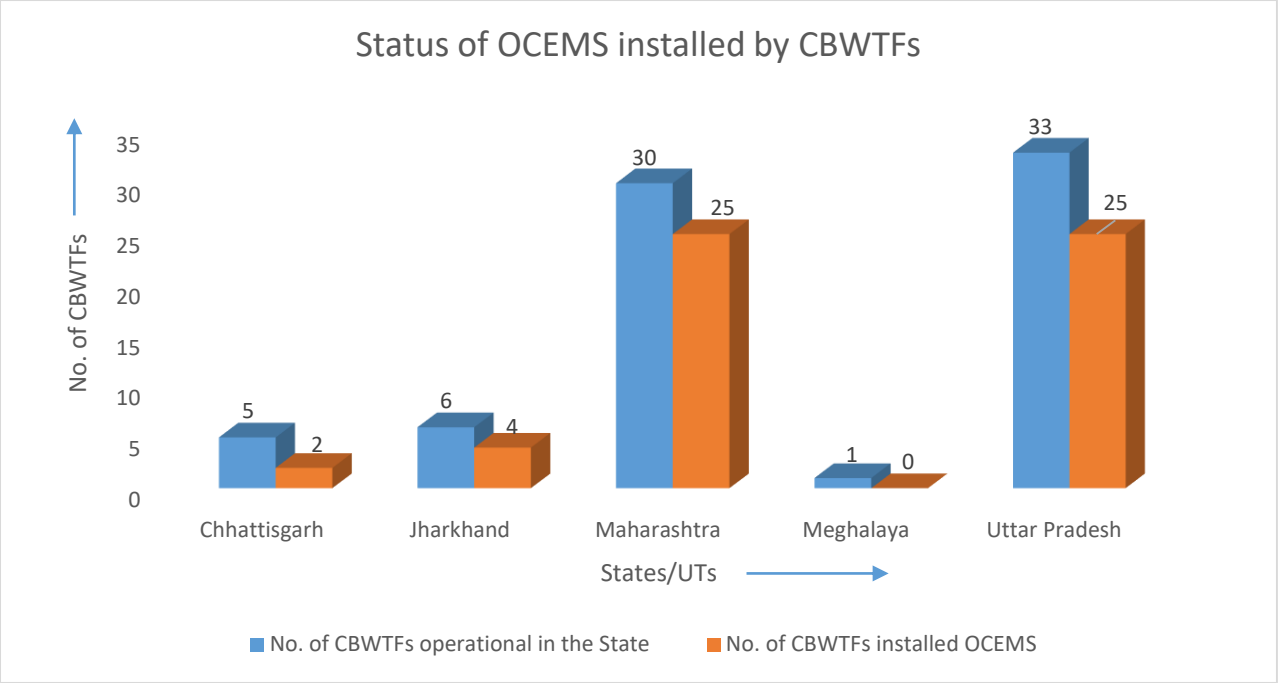

Fig 12; Status of no. of CBWTFs not installed OCEMS in States

7 Bio-medical Waste Management in Healthcare Establishments of Armed Force Medical Services (AFMS)

The prescribed authority for Armed Force Medical Services is Directorate General Armed Forces Medical Services (DGAFMS). As reported, 697 Armed Forces Healthcare Establishments (AFHCEs) functioning under DGAFMS generate approximately 5.6 tonnes per day of biomedical waste, which is entirely treated and disposed of through Common Bio-Medical Waste Treatment Facilities (CBWTFs) and captive treatment facilities. Out of the 697 AFHCEs, 227 are bedded facilities and 470 are non-bedded facilities. Of the 227 bedded AFHCEs, 160 are utilizing CBWTFs, while the remaining 67 are operating captive treatment facilities.

Further, about 0.61 tonnes per day of biomedical waste is being treated through captive treatment facilities of HCFs, which is not recommended under the Biomedical Waste Management (BMWM) Rules, 2016, where a CBWTF is available within a radius of 75 km. The remaining 4.9 tonnes per day of biomedical waste is being treated and disposed of through CBWTFs. The total quantity of recyclable waste generated by the 160 AFHCEs is being handed over to authorized CBWTFs.

Out of 67 no. of AFHCEs having captive treatment facilities, 21 AFHCEs are having incinerators as per the standards prescribed under BMWM Rules, 2016 and CPCB guidelines. Further, remaining AFHCEs are generating very minimum quantity of bio-medical waste, so wherein the CBWTF is not available under 75 kms, disposing the same by deep burial as per the BMWM rules & guidelines.

Central Pollution Control Board (CPCB) has conducted the inspection of 6 AFHCEs in year 2024 located Jodhpur (Raj.), Pachmarhi (Madhya Pradesh), Goa, Panaji, Karvar, Belagavi to verify the compliance status of BMWM Rules, 2016. Based on observations of CPCB, recommendations were forwarded to DGAFMS and requested to take necessary action against the defaulting

AFHCEs and to ensure corrective measures in respect of violation observed by CPCB. DGAFMS submitted that they conducted regular training regarding bio- medical waste management.

A meeting was conducted by CPCB with DGAFMS regarding the issues faced by them in implementing the BMWM Rules in AFHCEs, such as installation of ETP/STP plants, disposal of liquid bio-medical waste, implementation of the barcoding system, and other related matters."

8 Implementation of Bar-code system

Rule 4 (i) of BMWM Rules, 2016, stipulate that it is the duty of every Health Care Facility (HCF) to establish a bar code system for bags or containers containing BMW to be sent out of the premises or place for any purpose. Also, Rule 5 (c) of the BMWM Rules, 2016 stipulates that it is the duty of every Operator of CBWTF to establish bar code system for handling of BMW. To facilitate implementation of barcode system by Operators of CBWTFs and Hospitals at State levels, CPCB has prepared guidelines for "Barcode System for Effective Management of BMW".

As per the barcode guidelines, "Implementation of the bar code system is the joint responsibility of the Occupier as well as Operator of a CBWTF as prescribed under the BMWM Rules, 2016 as amended thereof. Bar Code Based Waste Management software should be installed and operated by the CBWTF who is providing services of bio-medical waste treatment and disposal. Each member HCF shall obtain access to the Bar Code Based Waste Management System from the facility operator".

Further, Hon'ble Supreme Court of India in the matter of IA No. 181745 of 2019 and I.A. No. 46339 of 2020, in W.P.C. 13029 of 1985 also passed orders directed MoEF & CC / CPCB to work out a national bar-coding system/portal for tracking of biomedical waste.

In this matter, CPCB is developing Centralised Barcode System for tracking of biomedical waste (CBST-BMW) portal. CBST-BMW Portal adopts an end-to-end implementation methodology to track the generation, collection and treatment of Bio-Medical Waste Bags, wherein includes; registration of CBWTF/HCF and management and tracking of bio-medical waste bags.

9. Issues and way forward

- Some of the HCFs in State namely Andhra Pradesh, Arunachal Pradesh, Assam, Daman & Diu, Haryana, Himachal Pradesh, Jharkhand, J & K, Karnataka, Kerala, Ladakh, Madhya Pradesh, Maharashtra, Meghalaya, Mizoram, Nagaland, Odisha, Punjab, Sikkim, Tamil Nadu, Telangana, Uttarakhand and Uttar Pradesh are still not authorized. SPCB/PCCs shall ensure authorization of every HCF and take action against HCFs operational without authorization.
- Some States/UTs namely Assam, Jharkhand, Manipur, Nagaland, Odisha, Madhya Pradesh and Puducherry have submitted the gap between generation and treatment of biomedical waste. SPCBs/PCCs should ensure that all biomedical waste generated from HCFs should be treated and disposed of in line with BMWM Rules, 2016.
- The SPCB/PCC or the concerned department of the respective State Government or UT Administration should ensure the installation of Common Bio-Medical Waste Treatment Facilities (CBWTFs) for the treatment and disposal of biomedical waste in Andaman and Nicobar Islands,

Arunachal Pradesh, Ladakh, Lakshadweep, Mizoram, Nagaland, and Sikkim.

- SPCBs shall ensure that recyclable bio-medical waste collected by CBMWTFs should be treated properly and sent to registered recyclers only. It should be also ensuring that all recyclable bio-medical waste from HCFs should be send to CBWTF for treatment.
- SPCBs/PCCs shall ensure timely submission of annual report pertaining to their respective State or Union Territory within stipulated time period i.e. on or before 31st July.
- Despite of availability of service of CBWTF, Captive Treatment Facilities including deep burials are still being used in 25 States/UTs. Therefore, SPCBs/PCCs should restrict usage of captive treatment facilities including deep burial pits where CBWTF is accessible.
- State Boards should closely monitor or track the movement of BMW generated by HCFs and treated and disposed through CBWTF. And ensure that all HCFs /CBWTFs should adopt bar coding system as per Rule 4(i) and Rule 5(c) of the BMWM Rules.
- Any incidents or reports of illegal dumping or open burning of waste and non-complying facilities should be acted upon quickly and appropriate action may be initiated.
- Adequacy of treatment capacity of existing CBWTFs and their compliance status be regularly monitored by the SPCBs/PCCs to assess the requirement of additional treatment facility for the State / Union Territory.
- All SPCBs/PCCs except Himachal Pradesh, Haryana, Telangana and Andhra Pradesh should conduct gap analysis with respect to generation of biomedical waste and available treatment capacity to check adequacy of available treatment capacity of CBWTF.
- Some of the states have not provided the information related to BMWM Committee constituted by the occupiers. SPCBs/PCCs should ensure the submission the information of BMWM Committee constituted by HCFs.
- SPCBs/PCCs shall carry out regular monitoring of CBWTFs and HCFs to ensure compliance by all occupiers and operators of the CBWTF, with respect to the proper management, handling, treatment and disposal of bio-medical waste.
- For continuous monitoring of emission from incinerators, SPCBs/PCCs shall ensure that OCEMS is installed in every CBWTFs and connected to CPCB/SPCB server.

10 State/UT wise status of Biomedical Waste Management

10.1 Andaman and Nicobar Islands

No. of HCFs	169
No. of bedded HCFs	94
No. of non-bedded HCFs	198
No. of beds	292
No. of CBWTFs	NIL
No. of HCFs granted authorization	145
No. of HCFs utilizing CBWTFs	NIL
No. of HCFs having Captive Treatment Facilities	6

No. of Captive Incinerators Operated by HCFs	6
Quantity of BMW generated in kg/day	521.45
Quantity of BMW treated in kg/day	521.45
No. of HCFs/CBWTFs violated BMW Rules	NIL
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	NIL

Andaman and Nicobar Islands are geographically isolated and most HCFs are located in the remote locations, therefore deep burial pits are being used by the HCF for disposal of biomedical waste. Currently there is no operational CBWTF in the UT, although Directorate of Health Service (DHS) has initiated for identification of land for establishment of CBWTF. All biomedical waste generated in UT is being treated and disposed through captive incinerators including deep burial pits. Only 7 occupier installed liquid waste treatment facility. PCC should authorize the remaining occupiers and improve the compliance regarding liquid waste treatment by HCFs.

10.2 Andhra Pradesh

No. of HCFs	15,526
No. of bedded HCFs	7,570
No. of non-bedded HCFs	7,956
No. of beds	1,77,841
No. of CBWTFs	12
No. of HCFs granted authorization	2,535
No. of HCFs utilizing CBWTFs	15,430
No. of HCFs having Captive Treatment Facilities	NIL
No. of Captive Incinerators Operated by HCFs	NIL
Quantity of BMW generated in kg/day	20,485.36
Quantity of BMW treated in kg/day	20,485.36
No. of HCFs/CBWTFs violated BMW Rules	863
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	863

Currently all the BMW generated in the State is treated through CBWTF and no captive treatment facility is operational in the State. There are 422 occupiers that are currently operational without authorization in the State. Only 1010 occupier installed liquid waste treatment facility. SPCB should authorize the remaining occupiers and improve the compliance regarding liquid waste treatment by HCFs.

10.3 Arunachal Pradesh

No. of HCFs	307

No. of bedded HCFs	148
No. of non-bedded HCFs	159
No. of beds	1,658
No. of CBWTFs	NIL
No. of HCFs granted authorization	307
No. of HCFs utilizing CBWTFs	NIL
No. of HCFs having Captive Treatment Facilities	192
No. of Captive Incinerators Operated by HCFs	6
Quantity of BMW generated in kg/day	209.23
Quantity of BMW treated in kg/day	209.23
No. of HCFs/CBWTFs violated BMW Rules	40
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	40

Currently there is no CBWTF operational in the State and the generated biomedical i.e. 209.23 kg/day is treated and disposed through captive treatment facility. Only 91 occupier installed liquid waste treatment facility. Though the HCFs are located in remote areas, development of CBWTF should be explored by SPCB to restrict use of captive treatment facility including deep burial.

10.4 Assam

No. of HCFs	1,494
No. of bedded HCFs	590
No. of non-bedded HCFs	888
No. of beds	29,331
No. of CBWTFs	02
No. of HCFs granted authorization	608
No. of HCFs utilizing CBWTFs	740
No. of HCFs having Captive Treatment Facilities	384
No. of Captive Incinerators Operated by HCFs	INP
Quantity of BMW generated in kg/day	6,832.189
Quantity of BMW treated in kg/day	5,398.326
No. of HCFs/CBWTFs violated BMW Rules	46
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	18

Currently there are 02 no. of CBWTFs is present in the State and 5,398.326 kg/day of BMW is treated and disposed through CBWTF. 384 no. of HCFs in the State have captive treatment facility and 2124 kg/day of BMW is treated and disposed through captive treatment facilities. A gap is observed between the generation and disposal of the biomedical waste in the State. 812 no. of occupiers have installed the liquid waste treatment facility. SPCB should ensure implementation of BMWM Rules, 2016 and minimize the gaps identified in Annual Report.

10.5 Bihar

No. of HCFs	27,471
No. of bedded HCFs	6,809
No. of non-bedded HCFs	20,662
No. of beds	1,09,718
No. of CBWTFs	04
No. of HCFs granted authorization	27,471
No. of HCFs utilizing CBWTFs	27,471
No. of HCFs having Captive Treatment Facilities	01
No. of Captive Incinerators Operated by HCFs	01
Quantity of BMW generated in kg/day	28,365.3
Quantity of BMW treated in kg/day	28,365.3
No. of HCFs/CBWTFs violated BMW Rules	3733
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	3733

911 nos. of occupier have installed the liquid waste treatment facility. SPCB should authorize the remaining occupiers and improve the compliance regarding liquid waste treatment by HCFs.

10.6 Chandigarh

No. of HCFs	943
No. of bedded HCFs	51
No. of non-bedded HCFs	892
No. of beds	4962
No. of CBWTFs	01
No. of HCFs granted authorization	49
No. of HCFs utilizing CBWTFs	943
No. of HCFs having Captive Treatment Facilities	0
No. of Captive Incinerators Operated by HCFs	0
Quantity of BMW generated in kg/day	6,599
Quantity of BMW treated in kg/day	6,599
No. of HCFs/CBWTFs violated BMW Rules	0
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	0

Currently there is 01 CBWTF is present in the UT and total generated biomedical waste ie. 6,599 kg/day is treated and disposed through CBWTF. There is no captive treatment facility in the UT and all occupiers are currently authorised by PCC. Most of the occupiers (940 nos.) have

installed liquid waste treatment facility.

10.7 Chhattisgarh

No. of HCFs	7,733
No. of bedded HCFs	2,681
No. of non-bedded HCFs	5,052
No. of beds	60,217
No. of CBWTFs	5
No. of HCFs granted authorization	3,249
No. of HCFs utilizing CBWTFs	3,802
No. of HCFs having Captive Treatment Facilities	2194
No. of Captive Incinerators Operated by HCFs	INP
Quantity of BMW generated in kg/day	11155.25
Quantity of BMW treated in kg/day	11155.25
No. of HCFs/CBWTFs violated BMW Rules	185
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	75

State has not submitted information regarding captive incinerator operated by HCFs. States shall submit the complete information in the Annual Report information and minimize the gaps observed in the Annual reports communicate by CPCB. 2038 occupier installed liquid waste treatment facility.

10.8 Daman &Diu and Dadra & Nagar Haveli

No. of HCFs	272
No. of bedded HCFs	86
No. of non-bedded HCFs	189
No. of beds	1,476
No. of CBWTFs	Utilising CBWTF of Gujarat
No. of HCFs granted authorization	108
No. of HCFs utilizing CBWTFs	275
No. of HCFs having Captive Treatment Facilities	NIL
No. of Captive Incinerators Operated by HCFs	NIL
Quantity of BMW generated in kg/day	537.98
Quantity of BMW treated in kg/day	537.98
No. of HCFs/CBWTFs violated BMW Rules	NIL
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	173

Currently only 1 CBWTF which is situated in the Gujarat State is being utilised by the HCF of the UT for disposal of the biomedical waste. No captive treatment facility is operational in the UT. No occupier in the UT has installed liquid waste treatment facility. PCC should rectify the gaps identified in Annual Report.

10.9 Delhi

No. of HCFs	11133
No. of bedded HCFs	1,682
No. of non-bedded HCFs	9,451
No. of beds	63,450
No. of CBWTFs	2
No. of HCFs granted authorization	1,385
No. of HCFs utilizing CBWTFs	11,133
No. of HCFs having Captive Treatment Facilities	1
No. of Captive Incinerators Operated by HCFs	NIL
Quantity of BMW generated in kg/day	33,620.56
Quantity of BMW treated in kg/day	33,620.56
No. of HCFs/CBWTFs violated BMW Rules	3
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	3

Currently there are 02 no. of CBWTF is present in the UT and 33,620 kg/day of biomedical waste is treated and disposed through CBWTF. 01 no. of HCF in the UT have captive treatment facility and 520.11 kg/day of biomedical waste is treated and disposed through captive treatment facility. 167 nos. of occupier have installed the liquid waste treatment facility. PCC should rectify the gaps identified in Annual Report.

10.10 Goa

No. of HCFs	928
No. of bedded HCFs	102
No. of non-bedded HCFs	826
No. of beds	5,459
No. of CBWTF	1
No. of HCFs granted authorization	300
No. of HCFs utilizing CBWTFs	928
No. of HCFs having Captive Treatment Facilities	NIL
No. of Captive Incinerators Operated by HCFs	NIL
Quantity of BMW generated in kg/day	2323.12
Quantity of BMW treated in kg/day	2323.12
No. of HCFs/CBWTFs violated BMW Rules	2

No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	483

Currently there is 01 no. of CBWTF is present in the State and total generated waste i.e. 2323 kg/day is treated and disposed through CBWTF. There is no captive treatment facility in the State. information of occupiers has not provided w.r.t. installed liquid waste treatment facility. SPCB should rectify the gap observed in annual report.

10.11 Gujarat

No. of HCFs	41,357
No. of bedded HCFs	13,659
No. of non-bedded HCFs	27,698
No. of beds	2,54,714
No. of CBWTFs	22
No. of HCFs granted authorization	11,367
No. of HCFs utilizing CBWTFs	41,357
No. of HCFs having Captive Treatment Facilities	0
No. of Captive Incinerators Operated by HCFs	0
Quantity of BMW generated in kg/day	56,512.16
Quantity of BMW treated in kg/day	56,512.16
No. of HCFs/CBWTFs violated BMW Rules	3562
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	3562

Currently there is 22 CBWTF is present in the State and total generated BMW i.e. 56,512 kg/day is treated and disposed through CBWTF and no captive treatment facility present in the State. 3948 occupiers have installed liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report.

10.12 Haryana

No. of HCFs	7,733
No. of bedded HCFs	3,626
No. of non-bedded HCFs	4107
No. of beds	76209
No. of CBWTFs	11
No. of HCFs granted authorization	6,154
No. of HCFs utilizing CBWTFs	7733
No. of HCFs having Captive Treatment Facilities	NIL
No. of Captive Incinerators Operated by HCFs	NIL
Quantity of BMW generated in kg/day	22949.592
Quantity of BMW treated in kg/day	22949.592

No. of HCFs/CBWTFs violated BMW Rules	236
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	236

Currently there is 11 no. of CBWTF is present in the State and total generated BMW i.e. 22949kg/day is treated and disposed through CBWTF and no captive treatment facility present in the State. 236 no. of occupiers are currently in operation without applying for the authorization. 611 occupiers have installed liquid waste treatment facility. SPCB should improve the compliance regarding liquid waste treatment by HCFs.

10.13 Himachal Pradesh

No. of HCFs	10,145
No. of bedded HCFs	729
No. of non-bedded HCFs	9,416
No. of beds	20,544
No. of CBWTFs	4
No. of HCFs granted authorization	9,791
No. of HCFs utilizing CBWTFs	6,192
No. of HCFs having Captive Treatment Facilities	3,953
No. of Captive Incinerators Operated by HCFs	1
Quantity of BMW generated in kg/day	4593.93
Quantity of BMW treated in kg/day	4593.93
No. of HCFs/CBWTFs violated BMW Rules	19
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	19

Currently there are 04 no. of CBWTF is present in the State and 4501.19 kg/day of BMW is treated and disposed through CBWTF. 3,953 no. of HCF in the State have captive treatment facility and 92.74 kg/day of BMW is treated and disposed through CTF. 9,791 no. of occupiers have installed the liquid waste treatment facility.

10.14 Jharkhand

No. of HCFs	2,492
No. of bedded HCFs	1,399
No. of non-bedded HCFs	1,093
No. of beds	37,722
No. of CBWTFs	6
No. of HCFs granted authorization	247
No. of HCFs utilizing CBWTFs	2,219
No. of HCFs having Captive Treatment Facilities	2
No. of Captive Incinerators Operated by HCFs	2
Quantity of BMW generated in kg/day	6141.308

Quantity of BMW treated in kg/day	5988.26
No. of HCFs/CBWTFs violated BMW Rules	365
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	365

Currently there are 06 no. of CBWTF is present in the State and 5988 kg/day of biomedical waste is treated and disposed through CBWTF. 360 no. of occupiers are currently in operation without applying for authorization. 310 no. of occupiers have installed the liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report.

10.15 Jammu and Kashmir

No. of HCFs	8,194
No. of bedded HCFs	2,000
No. of non-bedded HCFs	6,194
No. of beds	23,921
No. of CBWTFs	03
No. of HCFs granted authorization	619
No. of HCFs utilizing CBWTFs	2,544
No. of HCFs having Captive Treatment Facilities	INP
No. of Captive Incinerators Operated by HCFs	INP
Quantity of BMW generated in kg/day	8,650.04
Quantity of BMW treated in kg/day	8,643.43
No. of HCFs/CBWTFs violated BMW Rules	6,527
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	275

Information regarding captive treatment facility is not submitted by State. 6, 526 no. of occupiers are currently in operation without applying for the authorization. 137 no. of occupiers have installed liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report.

10.16 Karnataka

No. of HCFs	59,980
No. of bedded HCFs	10,597
No. of non-bedded HCFs	49,383
No. of beds	2,54,769
No. of CBWTFs	27
No. of HCFs granted authorization	6,335
No. of HCFs utilizing CBWTFs	39,342
No. of HCFs having Captive Treatment Facilities	1,581

No. of Captive Incinerators Operated by HCFs	1
Quantity of BMW generated in kg/day	74,443.3
Quantity of BMW treated in kg/day	55,923.24
No. of HCFs/CBWTFs violated BMW Rules	188
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	175

Currently there are 27 CBWTF is present in the State and 55,923 kg/day of biomedical waste is treated and disposed through CBWTF. 1,581 no. of HCF in the State have captive treatment facility and 765.004 kg/day of BMW is treated and disposed through CTF. 3783 no. of occupiers are currently in operation without applying for authorization. 16,595 nos. of occupier have installed the liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report.

10.17 Kerala

No. of HCFs	29,465
No. of bedded HCFs	2,438
No. of non-bedded HCFs	27,027
No. of beds	1,42,178
No. of CBWTFs	2
No. of HCFs granted authorization	28,295
No. of HCFs utilizing CBWTFs	29,465
No. of HCFs having Captive Treatment Facilities	6
No. of Captive Incinerators Operated by HCFs	6
Quantity of BMW generated in kg/day	96773.817
Quantity of BMW treated in kg/day	96773.817
No. of HCFs/CBWTFs violated BMW Rules	165
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	165

Currently there are 2 no. of CBWTF is present in the State and 96774 kg/day of biomedical waste is treated and disposed through CBWTF. 6 no. of HCFs in the State have captive treatment facility and 765 kg/day of biomedical waste is treated and disposed through CTF. 258 no. of occupiers are currently in operation without applying for authorization. 13762 nos. of occupier have installed the liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report.

10.18 Ladakh

No. of HCFs	403
No. of bedded HCFs	43
No. of non-bedded HCFs	360
No. of beds	996

No. of CBWTFs	0
No. of HCFs granted authorization	81
No. of HCFs utilizing CBWTFs	0
No. of HCFs having Captive Treatment Facilities	403
No. of Captive Incinerators Operated by HCFs	2
Quantity of BMW generated in kg/day	90.98
Quantity of BMW treated in kg/day	90.98
No. of HCFs/CBWTFs violated BMW Rules	322
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	322

There are no CBWTF operational in the UT. The generated BMW i.e. 90.98 kg/day is treated and disposed through captive treatment facility present with 403 no. of HCFs. There are 322 no. of occupiers operating without applying for the authorization. Installation of liquid waste treatment facility is under process in all HCFs. SPCB should rectify the gaps identified in Annual Report and expedite the process of establishment of CBWTF.

10.19 Lakshadweep

No. of HCFs	38
No. of bedded HCFs	10
No. of non-bedded HCFs	28
No. of beds	270
No. of CBWTFs	NIL
No. of HCFs granted authorization	NIL
No. of HCFs utilizing CBWTFs	0
No. of HCFs having Captive Treatment Facilities	10
No. of Captive Incinerators Operated by HCFs	10
Quantity of BMW generated in kg/day	29.41
Quantity of BMW treated in kg/day	29.41
No. of HCFs/CBWTFs violated BMW Rules	0
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	0

Currently there are no CBWTF operational in the UT. The generated waste i.e. 29.41 kg/day is treated using captive treatment facility including deep burial pits by the HCFs. No occupier is operating without applying for authorization. No occupier has installed the liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report and expedite the process of establishment of CBWTF.

10.20 Madhya Pradesh

No. of HCFs	12,234

No. of bedded HCFs	4,363
No. of non-bedded HCFs	7,871
No. of beds	1,49,114
No. of CBWTFs	19
No. of HCFs granted authorization	7,317
No. of HCFs utilizing CBWTFs	10,466
No. of HCFs having Captive Treatment Facilities	1
No. of Captive Incinerators Operated by HCFs	1
Quantity of BMW generated in kg/day	20,993.039
Quantity of BMW treated in kg/day	20,268.605
No. of HCFs/CBWTFs violated BMW Rules	2419
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	695

Currently there are 19 no. of CBWTFs is present in the State and 20,268 kg/day of biomedical waste is treated and disposed through CBWTF. Only 1 HCF in the State have captive treatment facility and 142.303 kg/day of biomedical waste is treated and disposed through CTF. 1,640 no. of occupiers are currently in operation without applying for authorization. 4,125 nos. of occupier have installed the liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report.

10.21 Maharashtra

No. of HCFs	76,645
No. of bedded HCFs	22,236
No. of non-bedded HCFs	54,409
No. of beds	3,85,004
No. of CBWTFs	30
No. of HCFs granted authorization	2,288
No. of HCFs utilizing CBWTFs	74,623
No. of HCFs having Captive Treatment Facilities	208
No. of Captive Incinerators Operated by HCFs	NIL
Quantity of BMW generated in kg/day	77,706
Quantity of BMW treated in kg/day	77,705
No. of HCFs/CBWTFs violated BMW Rules	24
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	25

Currently there are 30 no. of CBWTFs is present in the State and 77,706 kg/day of BMW is treated and disposed through CBWTF. 05 no. of CBWTFs are currently under construction in the State. 208 no. of HCFs in the State have captive treatment facility and 156 kg/day of BMW is treated and disposed through CTF. 38,109 no. of occupiers are currently in operation without applying for

authorization. 922 nos. of occupier have installed the liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report.

10.22 Manipur

No. of HCFs	766
No. of bedded HCFs	172
No. of non-bedded HCFs	594
No. of beds	5,237
No. of CBWTFs	1
No. of HCFs granted authorization	766
No. of HCFs utilizing CBWTFs	419
No. of HCFs having Captive Treatment Facilities	2
No. of Captive Incinerators Operated by HCFs	2
Quantity of BMW generated in kg/day	1584.79
Quantity of BMW treated in kg/day	1104.93
No. of HCFs/CBWTFs violated BMW Rules	2
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	3

Currently there are 01 CBWTF is present in the State and 1105 kg/day of biomedical waste is treated and disposed through CBWTF. 2 no. of HCFs in the State have captive treatment facility and 592.16 kg/day of biomedical waste is treated and disposed through captive treatment facility. No occupier is reported to be currently in operation without applying for authorization. 102 no. of occupiers have installed the liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report.

10.23 Meghalaya

No. of HCFs	1314
No. of bedded HCFs	198
No. of non-bedded HCFs	1,116
No. of beds	8,289
No. of CBWTFs	1
No. of HCFs granted authorization	1,139
No. of HCFs utilizing CBWTFs	175
No. of HCFs having Captive Treatment Facilities	325
No. of Captive Incinerators Operated by HCFs	NIL
Quantity of BMW generated in kg/day	2,172.876
Quantity of BMW treated in kg/day	2,172.876
No. of HCFs/CBWTFs violated BMW Rules	177
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	NIL

Currently there is 1 CBWTF is present in the State and 2,173 kg/day of BMW is treated and disposed through CBWTF. 325 no. of HCFs in the State have captive treatment facility and 1193.13 kg/day of BMW is treated and disposed through captive treatment facilities. 175 occupiers are currently in operation without applying for authorisation. 54 no. of occupiers have installed the liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report.

10.24 Mizoram

No. of HCFs	305
No. of bedded HCFs	65
No. of non-bedded HCFs	240
No. of beds	3,054
No. of CBWTFs	NIL
No. of HCFs granted authorization	59
No. of HCFs utilizing CBWTFs	NIL
No. of HCFs having Captive Treatment Facilities	148
No. of Captive Incinerators Operated by HCFs	2
Quantity of BMW generated in kg/day	755.4
Quantity of BMW treated in kg/day	755.4
No. of HCFs/CBWTFs violated BMW Rules	0
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	0

Currently there are no CBWTF present in the State. Out of total generated waste i.e. 755.4 kg/day is treated using captive treatment facility including deep burial pits by the HCF. 1 occupier is operating without applying for authorization. 286 no. of occupiers have installed the liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report and expedite the process of establishment of CBWTF.

10.25 Nagaland

No. of HCFs	710
No. of bedded HCFs	210
No. of non-bedded HCFs	500
No. of beds	3,654
No. of CBWTFs	0
No. of HCFs granted authorization	678
No. of HCFs utilizing CBWTFs	NIL

No. of HCFs having Captive Treatment Facilities	290
No. of Captive Incinerators Operated by HCFs	INP
Quantity of BMW generated in kg/day	667.5
Quantity of BMW treated in kg/day	667.5
No. of HCFs/CBWTFs violated BMW Rules	10
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	10

Currently there are no CBWTF present in the State. The generated waste i.e. 667 kg/day is treated using captive treatment facility including deep burial pits by the HCF. 02 no. of occupiers are operating without applying for authorization. 51 occupiers have installed the liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report and expedite the process of establishment of CBWTF.

10.31 Tamil Nadu

No. of HCFs	31,082
No. of bedded HCFs	8,343

No. of non-bedded HCFs	22,739
No. of beds	2,23,478
No. of CBWTFs	11
No. of HCFs granted authorization	30878
No. of HCFs utilizing CBWTFs	31,082
No. of HCFs having Captive Treatment Facilities	0
No. of Captive Incinerators Operated by HCFs	0
Quantity of BMW generated in kg/day	60723.694
Quantity of BMW treated in kg/day	60723.694
No. of HCFs/CBWTFs violated BMW Rules	4
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	4

Currently there is 11 no. of CBWTFs are present in the State and total generated biomedical waste i.e. 60724 kg/day is treated and disposed through CBWTF and no captive treatment facility present in the State. 9558 no. of occupiers have installed liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report.

10.32 Telangana

No. of HCFs	11,457
No. of bedded HCFs	5,879
No. of non-bedded HCFs	5,878
No. of beds	1,49,041
No. of CBWTFs	12
No. of HCFs granted authorization	6,596
No. of HCFs utilizing CBWTFs	10,292
No. of HCFs having Captive Treatment Facilities	0
No. of Captive Incinerators Operated by HCFs	0
Quantity of BMW generated in kg/day	31,272
Quantity of BMW treated in kg/day	31,272
No. of HCFs/CBWTFs violated BMW Rules	150
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	150

Currently there is 12 no. of CBWTFs are present in the State and total generated BMW i.e. 31,272 kg/day is treated and disposed through CBWTF and no captive treatment facility present in the State. 401 no. occupiers are currently in operation without applying for the authorization. 5879 occupiers have installed liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report

10.33 Tripura

No. of HCFs	2,011
No. of bedded HCFs	161
No. of non-bedded HCFs	1,850
No. of beds	4,847
No. of CBWTFs	01
No. of HCFs granted authorization	133
No. of HCFs utilizing CBWTFs	2011
No. of HCFs having Captive Treatment Facilities	0
No. of Captive Incinerators Operated by HCFs	0
Quantity of BMW generated in kg/day	1630.88
Quantity of BMW treated in kg/day	1630.88
No. of HCFs/CBWTFs violated BMW Rules	0
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	0

Currently there is 01 no. of CBWTF is present in the State and 1631 kg/day of BMW is treated and disposed through CBWTF. The discontinuation of captive treatment for BMW reflects notable progress in the state's waste management practices compared to previous years' data.No occupiers are currently in operation without applying for authorisation. 74 no. of occupiers have installed the liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report.

10.34 Uttarakhand

No. of HCFs	7,285
No. of bedded HCFs	2,126
No. of non-bedded HCFs	5,159
No. of beds	39,443
No. of CBWTFs	3
No. of HCFs granted authorization	5,375
No. of HCFs utilizing CBWTFs	4,214
No. of HCFs having Captive Treatment Facilities	2832
No. of Captive Incinerators Operated by HCFs	2
Quantity of BMW generated in kg/day	9239.42
Quantity of BMW treated in kg/day	9239.42
No. of HCFs/CBWTFs violated BMW Rules	1
No. of Show-Cause notices/Directions issued to defaulter HCFs/CBWTFs	1

Currently there is 02 no. of CBWTFs are present in the State and 9239 kg/day of BMW is treated and disposed through CBWTF. 2832 no. of HCFs in the State have captive treatment facility and 1351.79 kg/day of BMW is treated and disposed through captive treatment facility. 1,445 no. of

occupiers are currently in operation without applying for authorization. 292 no. of occupiers have installed the liquid waste treatment facility. SPCB should rectify the gaps identified in Annual Report.

10.35 Uttar Pradesh

No. of HCFs	42,622
No. of bedded HCFs	22,438
No. of non-bedded HCFs	20,184
No. of beds	3,22,139
